Family Therapy Training Program Virtual via Zoom

October 2023 – April 2024

**Faculty: Reem Abdul Qadir, MSW, RSW
Aimee Kenney, MSW, RSW**

The Family Therapy Seminar is an 11-session program that provides in-depth knowledge of theory and practice in family therapy. The program will focus on developing core competencies in assessment, formulation and treatment of families. Aspects of the theory of families and the craft of practice will be taught with the goal of developing an integrative framework.

Emphasis will be given to the development of concrete, applicable skills which participants will have an opportunity to observe with live family work. Observations of live sessions will occur for the duration of the seminar. The seminar will also include required readings, group discussions and experiential exercises.

Participants will learn:

- To complete a comprehensive assessment of a family, develop a formulation and a treatment plan.
- A systemic, 3-generational approach to working with families.
- Theories that inform the intervention with the family such as Structural, Strategic, Relational and Attachment in the context of the family system.
- A basic understanding of brain science, informing how we work with relationships within families
- To appreciate the diversity of families, e.g. culture, single parent, same sex families.
- The art and skill of questioning in a multi-person system, including using circular versus linear questions and exploring process versus content.
- An understanding of their position of power and social location within a therapeutic setting.
- To explore personal biases to gain an understanding of the underlying values and ethics that we bring into the work.
- To be able to identify patterns in relationships and how these dynamics can perpetuate challenges.
- How to mobilize the strengths of the family to facilitate change in the family system.

Thursdays, 9:00 a.m. – 1:00 p.m.

October 26, November 9, 23, December 7, 2023
January 11, 25 February 8, 22, March 7, 21, April 4, 2024
