will be closed from April
29th – May 3rd, as we
will be preparing for our
move into the school
and reopening on May
6th in room 104!**

THE GEORGE HULL EARLYON PROGRAM DESCRIPTIONS

Family Drop-In (0 to 6 years of age)

A wonderful opportunity for children and their family to participate in early learning activities and to enjoy the use of play materials, equipment and resources. This program is designed to encourage quality adult and child interactions in an age-appropriate, child-focused environment that enhances and promotes healthy child development

Baby's World (Birth to 12 months)

This program welcomes parents/caregivers to experience the joy of sharing songs, rhymes and musical activities with their infants. Families will have the opportunity to socialize, ask questions, and share helpful hints or strategies with each other while spending quality time with their babies. This program offers resources and services available within the community.

Learning and Growing Together for Black Families

A wonderful opportunity for black children and their families to participate in early learning activities and to enjoy the use of play materials, equipment and resources that are culturally relevant. This program is designed to encourage quality adult and child interaction in an age-appropriate, child focused, and culturally appropriate environment that enhances and promote healthy child development.

123 Let's Move (Indoor Movement) (Birth to 6 years of age)

The focus of this program is all about using our large muscles. We will be working on mastering gross motor skills like dancing, balancing, jumping, kicking and running. It is also a great way to burn off that extra energy.

Infant and Toddler Time (Birth to 24 months)

This program welcomes parents/caregivers to experience the joy of moving their bodies through songs, rhymes, finger plays, and musical activities with their infants and toddlers. Families will have the opportunity to socialize, ask questions, and share helpful hints or strategies with each other while spending quality time with their children.

Dad's and Kids (0 to 6 years of age) *(Registration required)

This special program offers fathers' the opportunity to engage with other dads. They will be able to network with others and share new experiences, ideas, concerns, and their expertise as fathers. This interactive program enhances and promotes healthy child development by providing activities to enhance skills in all areas of development.

Sensory Play

This program welcomes children and their families to experience play through the use of their senses. Each week we will focus on one sense such as tactile, sound, sight, smell, taste as well as vestibular (balance) and proprioceptive input (using muscles). Children will have the opportunity to enhance their senses through crafts, group time with songs and finger plays and age appropriate activities.

Explore with Science (3-6 years of age) *(Registration required)

Children are naturally curious. During this 8-week program, we will engage in inquiry-based play that will encourage your child to question, investigate, explore and discover the world around them through a science focus lens.

Yoga with Mary (0 to 6 years of age)

In this space we will offer an opportunity for our kids to reconnect with play, mindfulness and their physicality. Parents, caregivers, and their children will have the opportunity to meet and engage with others in an environment that fosters learning through play.
