

Family Group Conferencing | COORDINATOR TRAINING - ONLINE

Family Group Conferencing (FGC) is an innovative approach that gives the extended family network a voice in the decision-making process that affects their children. It brings the nuclear family, the extended family, and friends together to recommend to the child welfare agency a plan for the safety and well being of their children. FGC acknowledges the family's investment in the child and utilizes their firsthand knowledge about themselves. FGC is an approved method of Alternate Dispute Resolution (ADR).
